Hi Anna,
Here are the originals that Xabier and I worked off of- May 2016 version.
Hope this helps!

Janice

Thanks for sending that, Janice. The challenge is that I have compiled so many reviews, some of the line numbers have changed, so it's difficult to reference the comments you've made to the compiled version. Is there any way you can send me the original document you used to make the comments? I figure anyone on this chain may be able to send it; I was a bit apprehensive to look through the sharepoint assessment page to see if the original draft was there.

I'm about to head out for the day, so get it to me whenever you can. Thank you!!
Anna

Sure, here's the word document of our comments.

Janice

Hi Janice and Xabier,

Can one of you please send Anna (cc'd) a copy of the formaldehyde TR with your comments in Word form rather than pdf form? Anna is compiling a master ERC comment draft for us.

Thanks,
Andrew

Do any of you have the Lee/Arzuaga Tox Review in word document form, instead of PDF?

Hi Anna,

I hate to do this, but we just received another set of comments from John Vandenberg. It looks like he only had comments through page 250, so maybe it will be easy to integrate these comments into the compiled draft you are working with? Please let us know how you think this affects your timeline.

Thanks,
Andrew

All,

I must apologize profusely for not sending the comments on the draft much earlier – like more a month ago. I hope these may still be of some value. Its clear that a terrific effort has been put into this draft, to evaluate evidence and convey information as thoroughly yet concisely, and clearly as possible.

I went back through my files to find my comments on the draft, and added some edits to clarify my first run at it, hoping I could actually finish it, but I only made it through about page 250. Sorry. I also have comments on the preface that remain handwritten and too difficult to read, even for myself, that I'll try to transpose onto the draft I have. It may be that you have a newer version of the preface that I should review instead – not sure.

I'm going on vacation as soon as my wife returns in a few minutes and I'm sending this to partially clear my conscience! I'll be back in the office on Aug 29.

John
